

ULTRA-FAST
SOLUTIONS

Ultra-Fast Vitrification Media

A high performance duo for simplified,
reliable oocyte cryopreservation

Ultra-Fast Vitri

- **2-minute vitrification protocol:** speed without stress.
- **Only 2 simple steps:** fast, easy, reliable.
- **+80% time saved:** more efficiency, same performance.

Ultra-Fast Warm

- **1-minute warming protocol.**
- Validated and certified **for oocytes.**
- Less manipulation, more control, **and increased consistency across procedures.**

Because Time
is Precious

KITA ZATO®

Engineered for Precision. Trusted for Results.

Kitazato's Ultra-Fast Vitrification and Warming solutions have been developed through rigorous scientific research and close collaboration with leading IVF clinics worldwide.

Supported by robust multicenter studies and peer-reviewed publications, these protocols ensure efficient, simplified workflows that maintain oocyte viability without compromising clinical outcomes.

Scan the QR code to explore the full scientific evidence that validates Kitazato's Ultra-Fast protocols.
