

ULTRA-FAST
SOLUTIONS

Ultra-Fast Vitrification Media

A high performance duo for simplified,
reliable cryopreservation

Ultra-Fast Vitri

- **2-minute vitrification protocol:** speed without stress.
- **Only 2 simple steps:** fast, easy, reliable.
- Validated and certified for oocytes.

Ultra-Fast Warm

- **1-minute warming protocol.**
- Validated and certified for oocytes and blastocysts.
- Less manipulation, more control, and **increased consistency across procedures.**

Because Time
is Precious

KITAZATO®

Engineered for Precision. Trusted for Results.

Kitazato's Ultra-Fast Vitrification and Warming solutions have been developed through rigorous scientific research and close collaboration with leading IVF clinics worldwide.

Supported by robust multicenter studies and peer-reviewed publications, these protocols ensure efficient, simplified workflows that maintain oocyte and blastocysts viability without compromising clinical outcomes.

Scan the QR code to explore the full scientific evidence that validates Kitazato's Ultra-Fast protocols.
